SUMMARY

Software Engineer and AI Instructor with 2+ years of academic experience as a Computer Science Teaching Assistant and 3+ years in front-end development, system troubleshooting, and user support. Experienced in delivering Artificial Intelligence training through the AMIDEAST ECRAiL program, teaching university Computer Science courses, and building responsive web applications with React. Skilled at designing and optimizing software solutions, mentoring students, and collaborating within cross-functional teams. Strong communicator who is passionate about problem-solving, continuous learning, and delivering high-quality, scalable software.

WORK EXPERIENCE

AI Instructor – ECRAiL Program 2025 – Present
AMIDEAST – Egypt

- Deliver Artificial Intelligence training sessions as part of the AMIDEAST ECRAiL program.
- Teach core AI and Machine Learning concepts through lectures, hands-on labs, and practical projects.
- Mentor participants on applying AI tools and techniques to real-world problems, and assess their progress and project work.

Freelancing Coach 2025 – Present
Elharefa Company

- Train students to develop the technical and personal skills required in the job market, including freelancing and client management.

Teaching Assistant 2023 – Present
Arab Academy for Science, Technology and Maritime Transport (AASTMT)

- Deliver lectures, tutorials, and practical lab sessions in Computer Science courses.
- Mentor students on software development projects, particularly in front-end technologies.
- Organize workshops on modern web development practices.
- Courses taught: Object-Oriented Programming (OOP), Digital Logic Design (Lab), Discrete Structures, Advanced Database Systems, Web Programming, Designing Human-Centered Software, Introduction to Computing, Introduction to Information Systems.

Front-End Developer (Freelance) 2021 – Present
Self-Employed

- Design and develop responsive websites using HTML, CSS, JavaScript, and React.
- Collaborate with clients to translate business requirements into intuitive user interfaces.
- Optimize web performance and ensure cross-browser compatibility.
- Manage multiple projects under tight deadlines with a strong focus on client satisfaction.

Researcher Feb 2022 – Jan 2024
Action Restitution Africa (ARA)

- Performed data entry and built structured datasets.
- Created research reports and reviewed related studies.
- Developed web pages and produced graphic design materials.

EDUCATION

Master of Computer Science Sep 2024 – Present
School of Computer Science, Arab Academy for Science, Technology and Maritime Transport

Bachelor of Computer Science in Computing and Information Technology Sep 2019 – Jul 2023
School of Computer Science, Arab Academy for Science, Technology and Maritime Transport

- Graduated with High Honors, GPA: 3.68 / 4.0.
- Graduation Project: Indoor Positioning and Localization System Based on Low-Cost LiDAR – implemented Hector SLAM for mapping and pose estimation, delivering an affordable indoor positioning solution for robotics and tracking applications.

SKILLS

Programming & Web: HTML, CSS, JavaScript, TypeScript, React.js, Bootstrap, Tailwind CSS, REST APIs, Git, GitHub, Figma
Artificial Intelligence: AI fundamentals, Machine Learning concepts, AI education and training
Systems & Networking: Windows, Linux (basic), TCP/IP, IP, DNS, DHCP, IT support and troubleshooting
Soft Skills: Communication and presentation, teaching and mentoring, problem-solving and critical thinking, time management, attention to detail, working under pressure, fast learner
Languages: Arabic (Native), English (Professional)

CERTIFICATIONS AND COURSES

- Introduction to Networking – Cisco Networking Academy Apr 2025
- Google IT Support Professional Certificate – Coursera Mar 2025
- Winter School on Quantum Information and Quantum Computing Feb 2025
- Artificial Intelligence Course – AMIT Dec 2024
- Training Course on Processing Technology of Agricultural and Livestock Products for Developing Countries – China Aug 2024 – Sep 2024
- Web Design Track – ITI, Qena Aug 2022
- ACM Training (Online) Mar 2022
- Web Design – ITI, Aswan Feb 2021
- Freelancing (Online) Feb 2021
- Mobile Application Development – YAT (Online) Dec 2020

ACTIVITIES AND AWARDS

- Web Design Basics Trainer for college newcomers.
- Problem-Solving Coach, ICPC AAST Aswan community.
- Member, Normandy ROV Team, AASTMT.
- Head of Media and Marketing, GDG student chapter.
- Head of Media and Marketing, IEEE student branch.
- Member, Marketing Design Team, AASTMT Aswan branch.
